Further Information

Summary:

The Rimage Producer 5400N disc duplicator is a compact, all-in-one disc duplication solution designed specifically for front office settings and is an ideal size for any desktop. The embedded control center allows the 5400N to be set-up as a networked device and be used by a single user or a large number of operators. Single users or workgroups can create discs as easily as they print to the office printer, taking advantage of the convenience of an intelligent network appliance with professional print quality and hands-free operation. Optional upgrade to Blu-ray duplicator available.

Full colour professionally printed discs are simple, fast and easy to create. The integrated Everest 400 thermal disc printer features full colour, offset-quality printing, edge-to-edge coverage and excellent durability. With its photo-realistic printing and durable laminated finish, it's faster and has a lower cost-per-disc than most inkjet printers.

Other features include:

Internal illumination for easy viewing or operation, LCD interface displays system status, Optional DiscWatch light displays system status, Multiple job processing and unlimited job queuing, Concurrent mixed media support, Embedded Control Centre, Customisable API, Fast robotics, Removable carousel, PerfectPrint image alignment, 100/1000 Base-T Ethernet, Producer Software Suite and Software Developer Kit, Integrated Windows PC, Service & Support options.

Authorised Rimage VAR:

CD Team are an authorised Rimage VAR (Value Added Reseller) and have been supplying and using Rimage Duplicators in-house for over 10 years.
